

THE WOODLAND WALK

AT MISERDEN

3.3 KM - 50 MINS

1. From The Garden car park, walk through Miserden village until you see a sign for a footpath on your left just before a large sycamore tree.
2. Taking this footpath, you will walk past a few cottages and then need to keep straight over two stiles, a road and two further gates.
3. You will then see some power lines cross next to an old ash tree. Turn left here towards the wood.
4. Continue walking and take the left fork along the top of the wood under the Scots Pine.
5. Go through the wicket gate and keep straight across a field to the gate at the bottom. Turn left on the road.
6. After 100m walk past the gate on your right after a further 40m turn right into the wood. Follow the track downhill. Continue straight keeping the pond (mainly reeds) on your right.
7. The path continues steeply downhill. Turn right at the head of the lake over a footbridge. Follow the lake round to the left.

8. Keep the stream on your left-hand side and follow the track uphill. Turn left after 50m onto the footpath. Turn left on the road over the stone bridge.
9. You will come to a junction, fork half left up the track through the wood.
10. Keep straight over a stone stile and straight up to the village for a well-earned bite to eat at the cafe.
